FORD TRANSIT

SPECS:

- Seating: 8–15 passengers
- GVWR: 9,070–10,360 lbs
- Roof options: Low, Medium, High

The Ford Transit is the trusted backbone of modern group transport — versatile, reliable, and built to adapt to your riders' needs. With multiple configurations, ADA upfit options, and proven Ford engineering.

- **ADA-compliant upfit options for healthcare, senior living, and transit agencies**
- **Flexible seating layouts for up to 15 passengers with luggage capacity**
- **Lower total cost of ownership compared to traditional fleet vehicles**

FORD E-TRANSIT

SPECS:

- Seating: 9 passengers
- GVWR: 10,360 lbs
- Roof options: Low, Medium, High

The Ford Transit E-Transit combines zero-emission performance with the versatility that makes Transit a fleet favorite. Built for agencies looking to cut fuel costs and meet sustainability goals.

- **Zero-emission driving**
- **ADA-ready shuttle and paratransit conversion options**
- **Seating for up to 9 passengers with luggage**
- **Lower operating costs with reduced fuel and maintenance**

RAM PROMASTER 136 WB

SPECS:

- Seating: up to 8 passengers
- GVWR: 8,550 lbs
- Wheelbase: 136"
- Floor: Low or Standard

Compact yet powerful, the Ram ProMaster 136 WB is built for operators who need maneuverability without sacrificing comfort. Its lower entry height and flexible layouts make it the perfect choice for paratransit, assisted living, and shuttle services.

- **Lower step-in height for easy passenger boarding**
- **Ideal for ADA shuttle conversions and paratransit applications**

RAM PROMASTER 159 WB

SPECS:

- Seating: up to
- 12 passengers
- GVWR: 9,350 lbs
- Wheelbase: 159"
- Floor: Low or Standard

With added space and capacity, the Ram ProMaster 159" balances efficiency with room for more passengers or equipment. It's a smart solution for agencies that need affordable transport with ADA options and flexible interiors.

- **Longer wheelbase offers**
- **more room for passengers**
- **or cargo**
- **Excellent platform for**
- **ADA lifts and shuttle**
- **conversions**
- **Configurable seating for**
- **up to 12 passengers**

FORD E-350

SPECS:

- Seating: up to 21 passengers
- GVWR: 11,500 lbs
- Engine: 7.3L V8
- Configurations:
Wheelchair
Accessible or
Passenger Shuttle

The Ford E-350 is a proven workhorse for organizations that need reliable transport with ADA capability. With flexible capacity and a trusted track record, it's the go-to choice for healthcare providers, nonprofits, and community fleets.

- **High-capacity seating for 14–21 passengers with ADA lift options**
- **Ideal for medical, para-transit, and institutional transportation**

FORD E-450

SPECS:

- Seating: up to 25 passengers
- GVWR: 14,500 lbs
- Engine: 7.3L V8
- Configurations:
Wheelchair
Accessible or
Passenger Shuttle

For maximum strength in the E-Series lineup, the Ford E-450 delivers higher capacity and durability for the most demanding fleet applications. Perfect for paratransit, senior care, and community transport, it's engineered to handle heavy loads without compromise.

- **Larger capacity and payload compared to the E-350**
- **Supports ADA lift integration for full compliance**

FORD F-SERIES F-550

SPECS:

- Seating: 25+ passengers
- GVWR: 19,500 lbs
- Engine: 7.3L V8 / Diesel options
- Custom body lengths available

When strength and capacity matter, the Ford F-550 delivers unmatched durability for agencies and institutions that demand reliability.

- **Built on a commercial-grade truck chassis for maximum durability**
- **Configurable to handle larger groups (25+ passengers)**
- **Perfect for government fleets, school systems, and institutional transport**

FORD F-SERIES F-650

SPECS:

- Seating: 25+ passengers
- GVWR: Up to 26,000 lbs
- Engine: 7.3L V8

The Ford F-650 raises the bar with even greater capacity and strength. It's the vehicle of choice for municipalities, and corrections that need a dependable heavy-duty solution

- **Extra power and capacity for the most demanding applications**
- **Configurations available for secure prisoner transport and large fleets**
- **Built for maximum uptime with heavy-duty parts and engineering**

CHRYSLER MINIVAN

SPECS:

- Seating: 5–7
- GVWR: ~6,000 lbs
- MPG: 28 highway
- ADA conversion:
side/rear
entry

Compact, cost-effective, and comfortable — the Chrysler Minivan is the ideal solution for smaller groups, care facilities, and organizations needing affordable ADA-capable transport.

**Big value in a small package,
the Minivan gets you moving
with comfort and compliance**

SPECIALTY VEHICLES

Not every fleet has the same needs — and that's where our specialty vehicles stand apart. At RO BUS Sales, we don't just sell buses, we design solutions. Whether it's student transport, secure prisoner movement, fully electric fleets, or ADA-accessible upfits, every vehicle can be customized to your exact requirements. From luxury interiors to compliance-driven features, we build with your mission in mind.

- **Custom seating, branding, and interiors to match your organization's goals**
- **Options in electric, gas, or diesel to fit your operational needs**

STUDENT TRANSPORTATION VAN

SPECS:

- Anti-Microbial surfaces are easy to clean for daily use.
- Automatic or manual open for passenger side door

A safer, CDL-free solution for schools and childcare facilities. Meets MFSAB requirements while offering affordable, easy-to-operate transport.

- **Seats 9+1 driver — no CDL required.**
- **Meets student transport safety standards.**

The smarter student transport alternative.

PRISONER TRANSPORT

Secure, durable, and compliant — purpose-built for corrections and law enforcement. Choose from low, medium, or high security.

- **Heavy-duty locking and security features.**
- **Flexible chassis options to match your exact capacity and service needs.**
- **Trusted by sheriffs and county agencies.**

**Security and reliability
behind every mile.**

ELECTRIC VEHICLES

Drive the future with EV options that cut operating costs while meeting sustainability mandates.

- **Lower fuel and maintenance costs.**
- **Eligible for federal/ state rebates and incentives.**
- **A quiet ride enhances the passenger experience.**

Future-proof your fleet with EVs

CUSTOM UPFITS

Every fleet is different, and we specialize in tailoring vehicles to your exact needs.

- **ADA lifts, gurney access, ramps, and securement systems.**
- **Luxury seating, luggage racks, and branding on both inside and outside.**
- **Delivered turnkey to your specs and compliance standards.**

Your fleet, your way, let's build it together
